

BlogBot Installation Guide

Version **1.0** – Original Release Candidate

Michalis “**BIG Mike**” Kotzakolios

With His Trusty Sidekicks **Diego Hernando** And **John Rogers**

(And Our JavaBean **Matias** Too!)

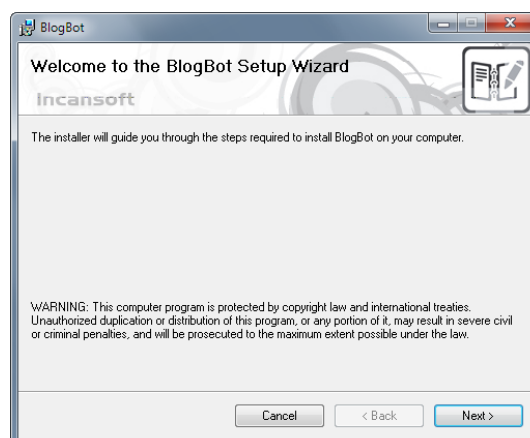

BLOGBOT INSTALLATION

1. Download the IS0035.zip file to your Windows Desktop.
2. Unzip the IS0035.zip file's contents to your Windows Desktop.

NOTE: The setup.exe file is provided for backwards compatibility with Windows XP. In Vista and Windows 7, use the BlogBot Setup.msi file to launch the installation program and avoid installation errors.

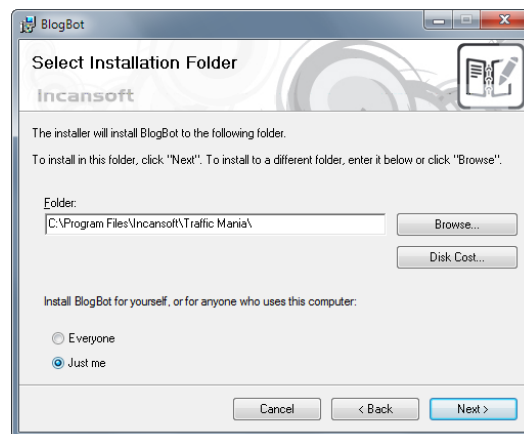

3. Double-click the Setup.exe file to launch the installer, which will display the screen shown below:

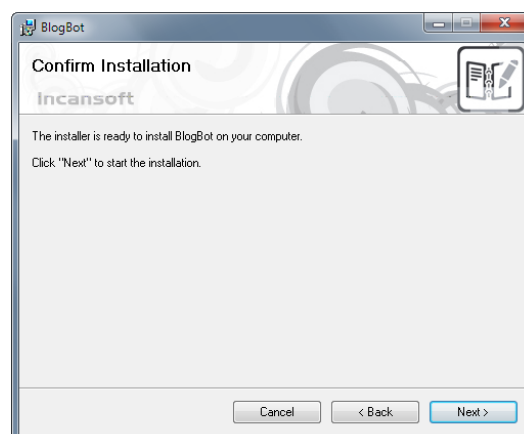

Click the Next button to continue.

4. The next step involves identifying the installation folder - if you are not quite an expert at this, we recommend you simply accept the default values and click the Next button.

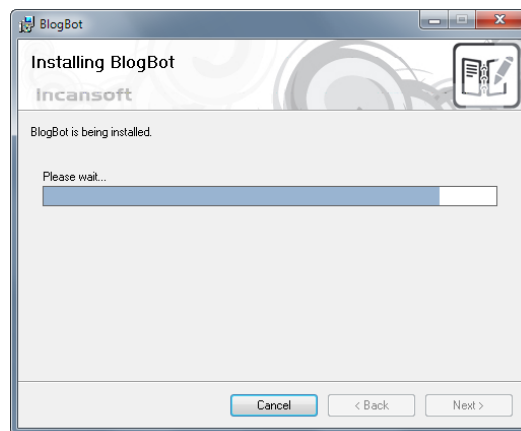

5. The next step is just a simple confirmation screen - when you click the Next button, BlogBot will begin installing on your computer.

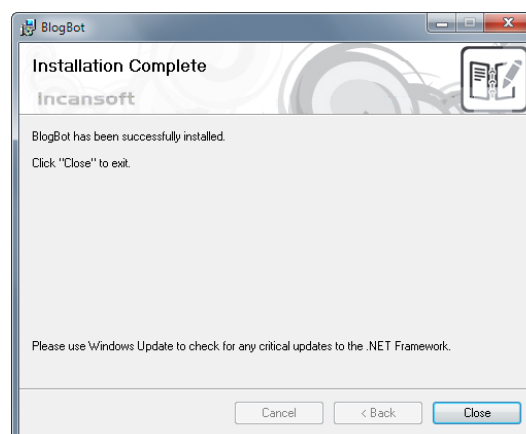

6. During this step, there is nothing for you to do - the progress bar indicates where BlogBot presently is in the installation process.

7. The installation wizard will complete the remainder of the installation automatically. The final screen will simply acknowledge that the program installation is complete - click the Close button to terminate the installer.

LAUNCHING BLOGBOT

After you have installed the program, you are going to double-click the icon on your desktop to launch it (shown below):

OBTAINING TECHNICAL SUPPORT

Before contacting Incansoft Technical Support, please ensure that your Windows Operating system is completely up-to-date by visiting [Windows Update](#).

You may need to install or update your version of [Microsoft .NET Framework 3.5](#) to V3.5, which you may download free from Microsoft.

Next, please take a few minutes to **completely read the Help Documentation** - chances are your questions are answered there already.

Lastly, please contact [Diego Hernando](#) directly via email (dhernando@gmail.com) with a detailed description of the problem you've encountered. Please allow him 24 hours to respond to your email.

All Incansoft Technical Support is provided on a first come - first serve basis, Monday through Friday, excluding holidays.
