Installation Section

Step 1: Install Traffic Accumulator

Open the installation file you received after your purchase of Traffic Accumulator, and you will then enter into the installation wizard.

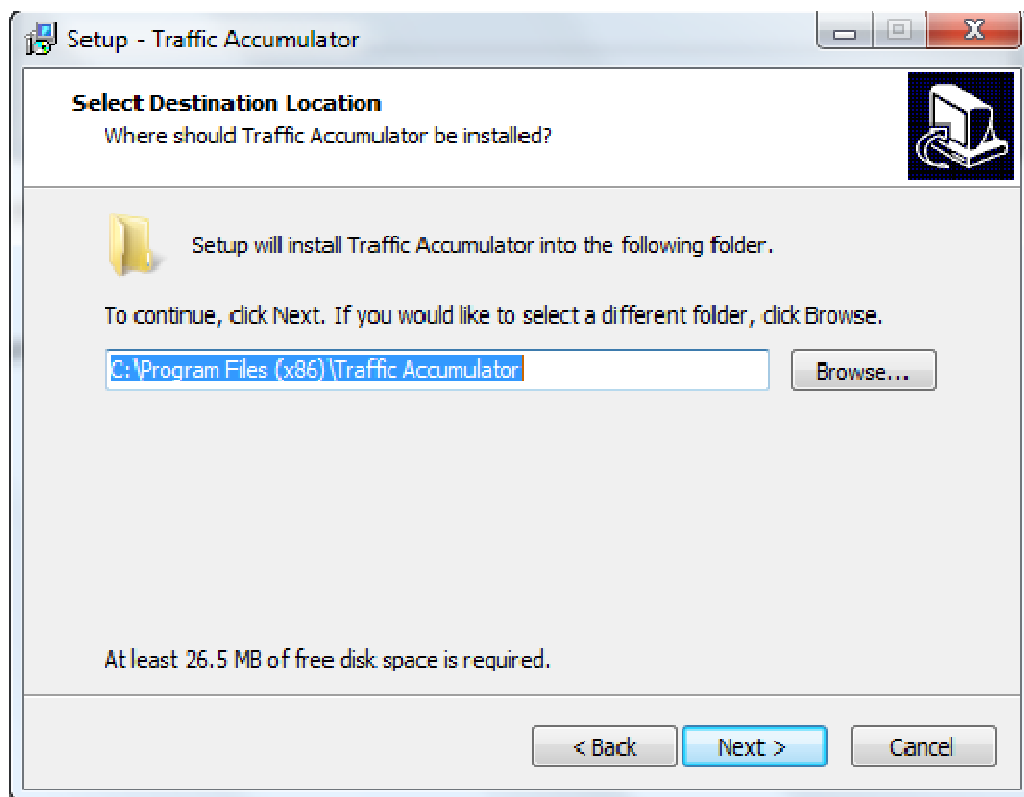

Click Next to proceed

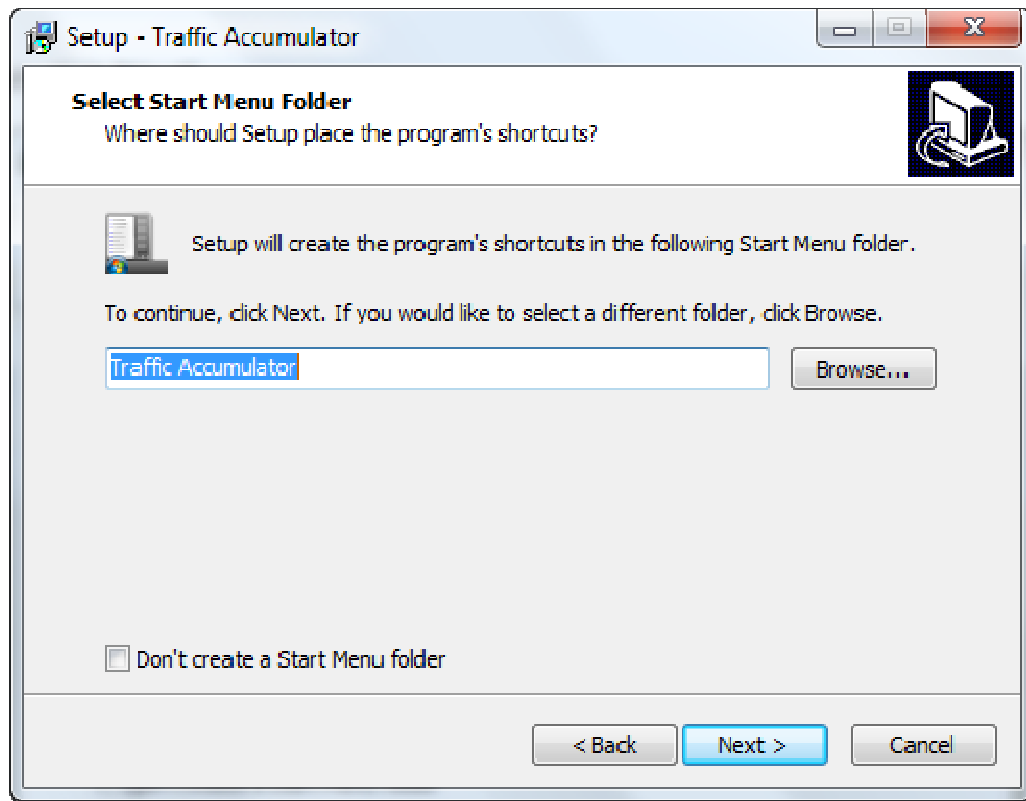

Here you will be asked to enter the password provided to you after your purchase of Traffic Accumulator

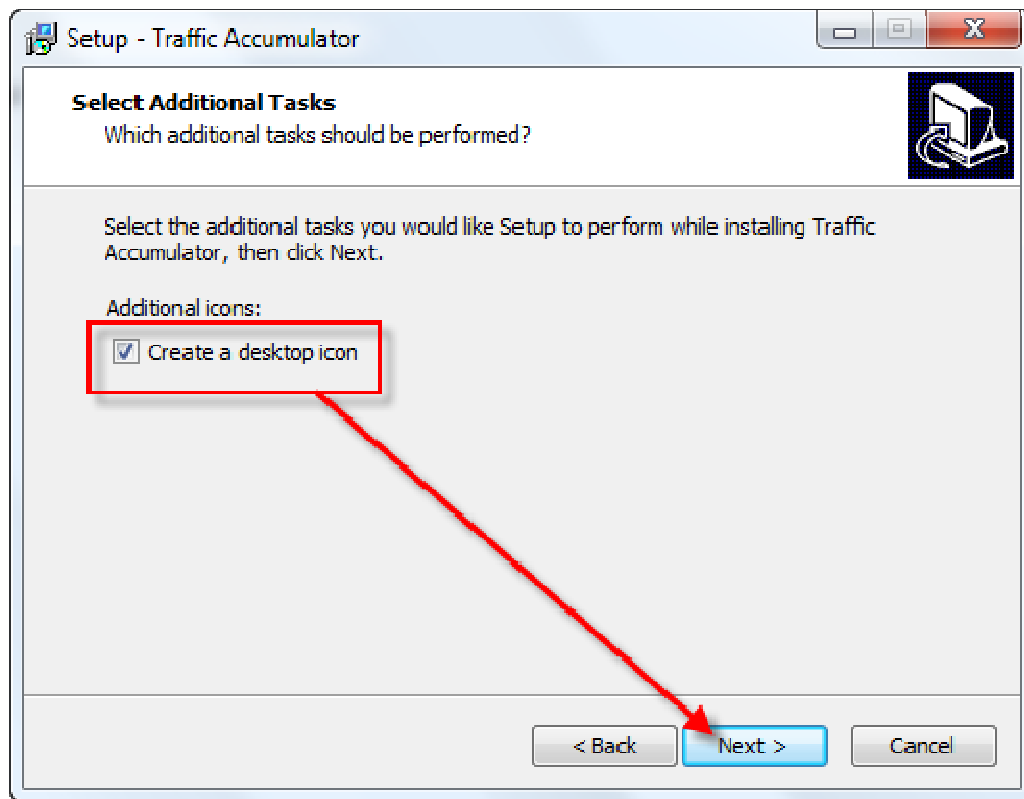

Then click "Next" again:

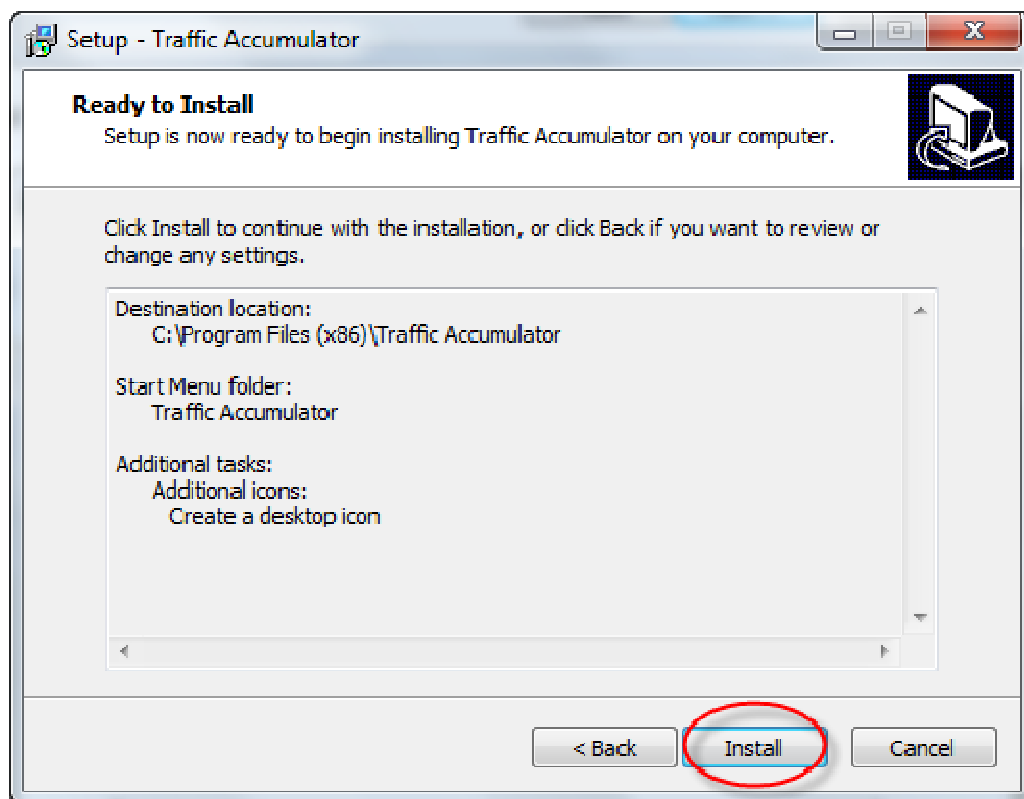

And again click “Next”

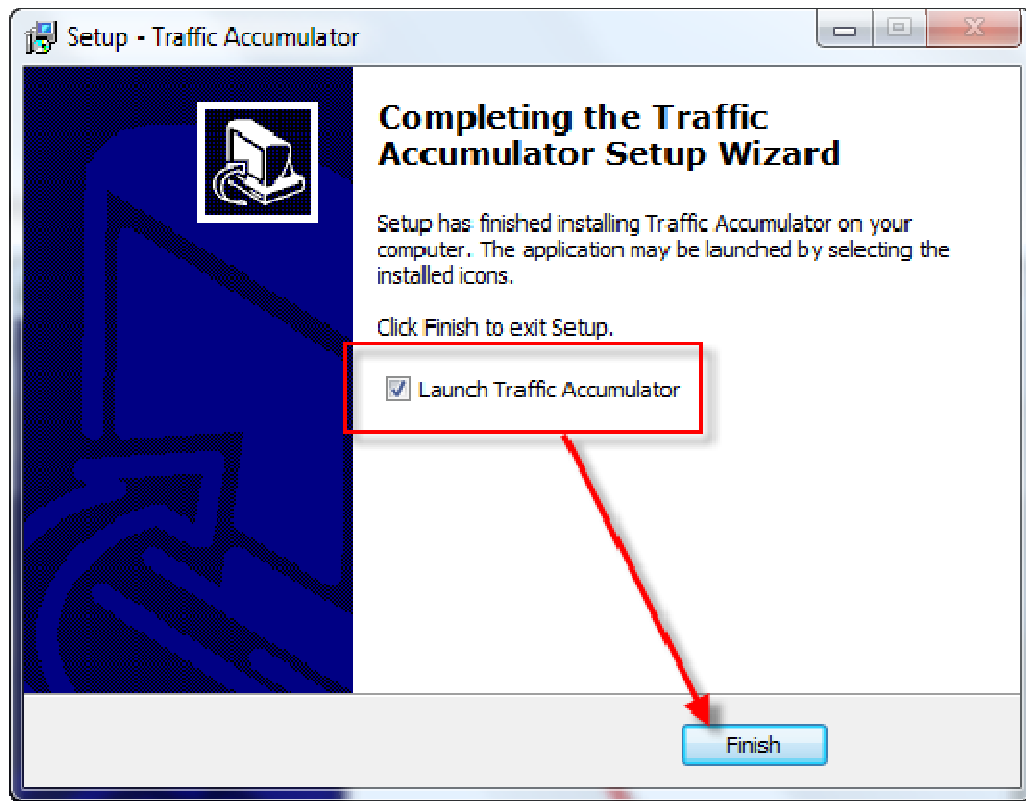

Here choose if you want to add a desktop icon of Traffic Accumulator or not and click the “Next” button

Now click "Install" to start installing Traffic Accumulator on your machine

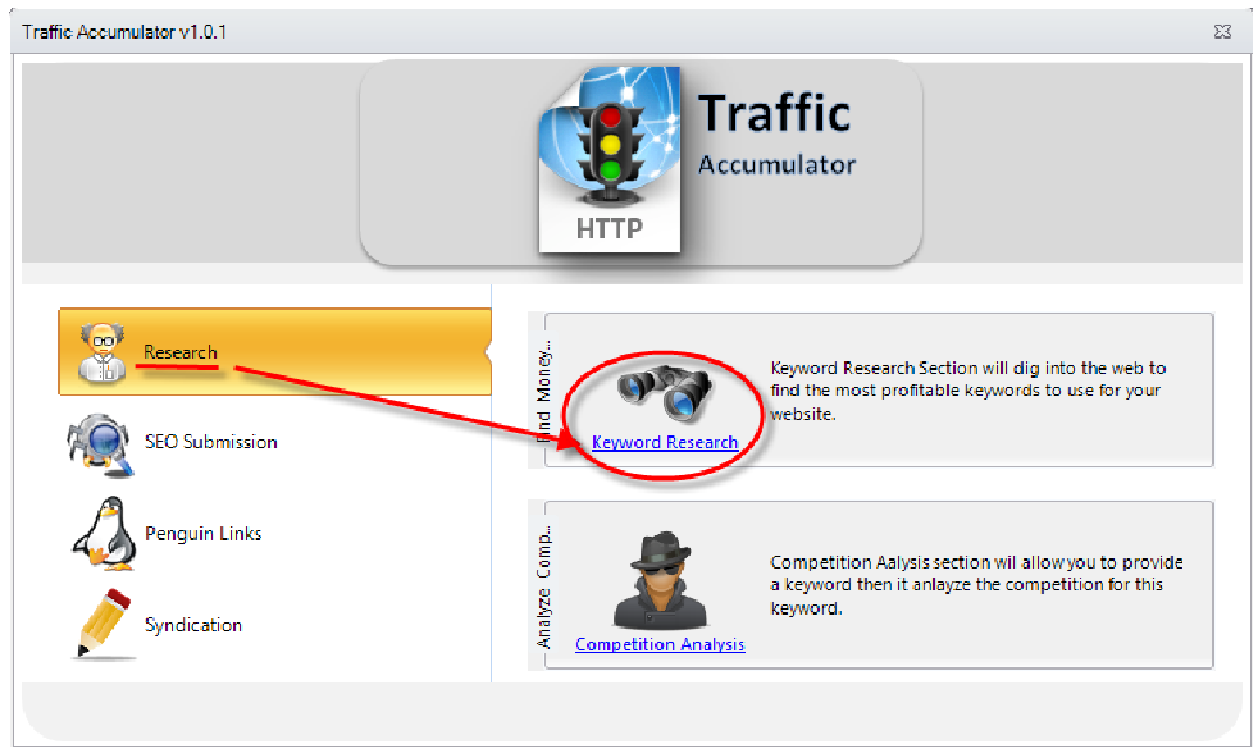

And finally check the “Launch Traffic Accumulator” button to open the software

Research Section

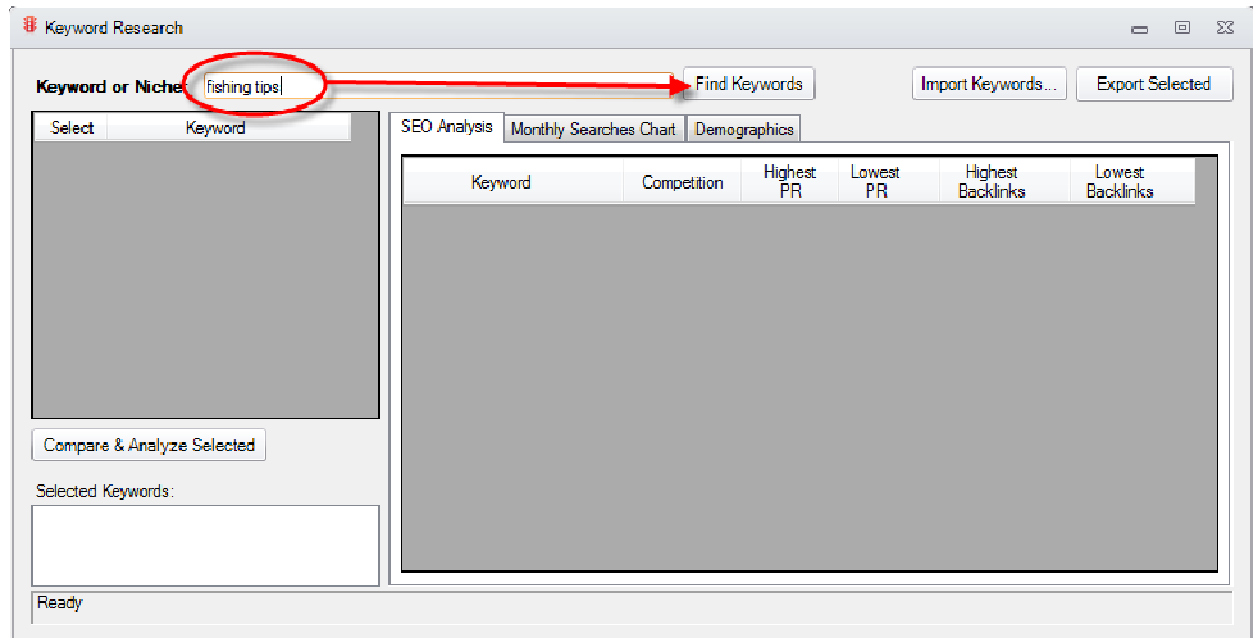

Step 1: Keyword Research

When you start Traffic Accumulator you need to click on the keyword research section in order to start finding good keywords to rank for.

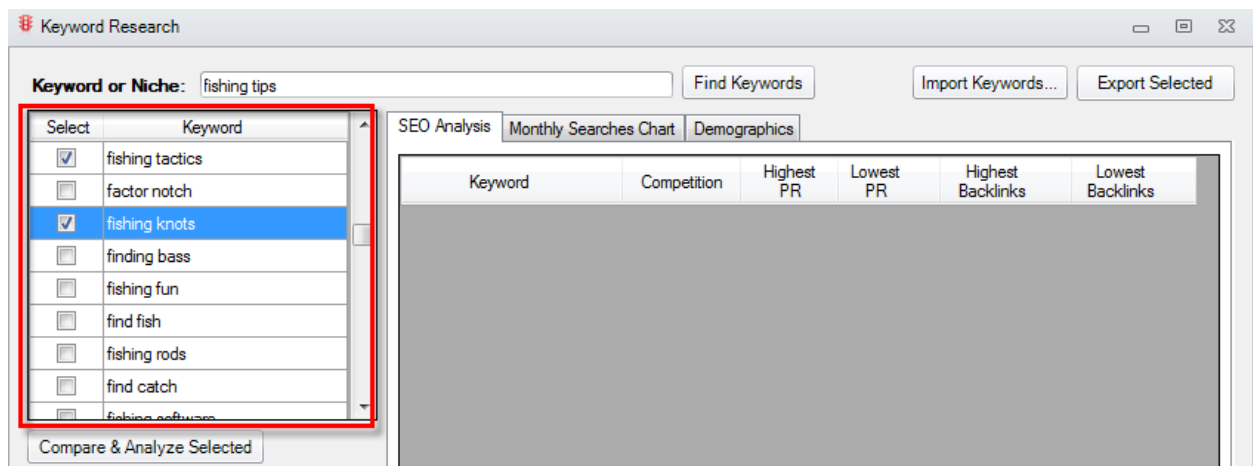

Find Keywords

A new window will now popup so that you can start doing your Keyword Research, you then have to type in your niche and click “Find Keywords” button:

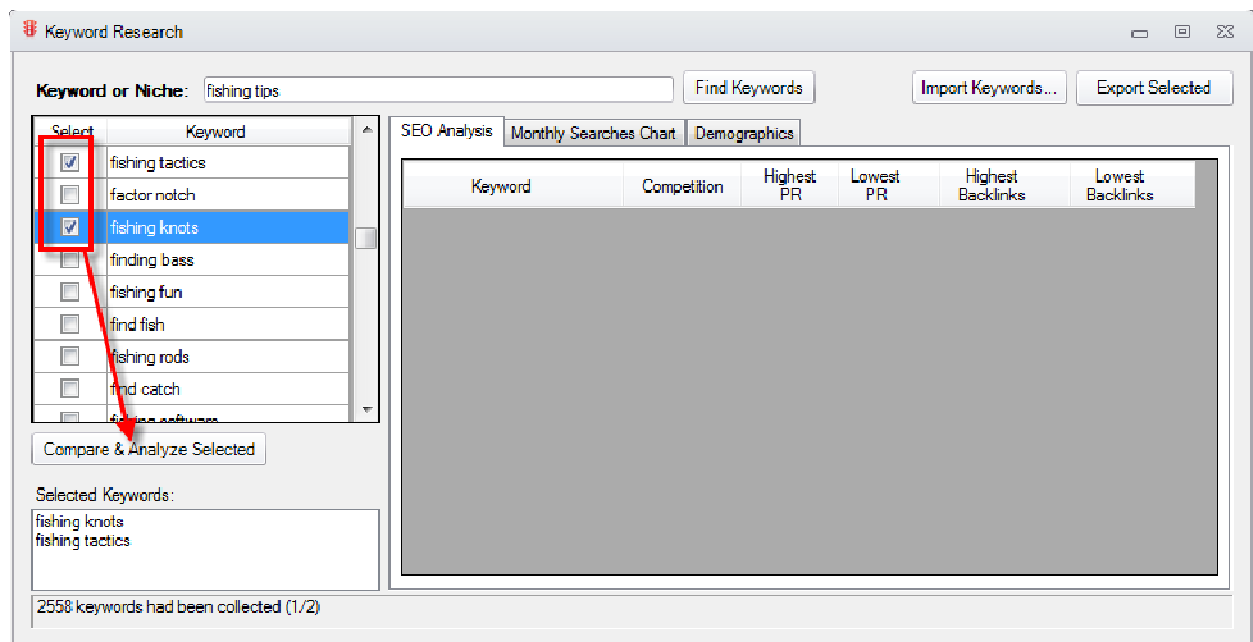

Wait for few moments and Traffic Accumulator will return to you many related keywords to the niche you entered, select the ones you want to use.

Analyze Keywords

Traffic Accumulator allows you to compare 2 keywords at a time, to be able to decide which one of them you want to use.

You can do so by simply ticking the “Select” column of any two keywords and click “Compare & Analyze Selected” button.

Now wait few seconds and Traffic Accumulator will finish comparing the 2 keywords you selected, by providing you with extensive SEO and Traffic data to use in your decision making.

However you should note that the analysis data for this comparison are divided into 3 sections (tabs) so let's explore the first tab, the "SEO Analysis" tab.

The screenshot shows the 'Keyword Research' application window. The 'Keyword or Niche' field contains 'fishing tips'. The 'Find Keywords' button is visible. The 'SEO Analysis' tab is selected and highlighted with a red box. The left sidebar shows a list of keywords with checkboxes: 'fishing tactics' (checked), 'factor notch', 'fishing knots' (checked), 'finding bass', 'fishing fun', and 'find fish'. Below this is a 'Compare & Analyze Selected' button and a 'Selected Keywords' list containing 'fishing knots' and 'fishing tactics'. The main table displays the following data:

Keyword	Competition	Highest PR	Lowest PR	Highest Backlinks	Lowest Backlinks
fishing knots	Low Compet ²	5 ³	N/A ⁴	104381 ⁵	0 ⁶
fishing tactics	Low Competi...	4	N/A	17277	0

At the bottom of the window, a status bar indicates 'SEO Analysis Completed.'

Keyword (1): The keyword being compared.

Competition (2): Google search competition for this keyword.

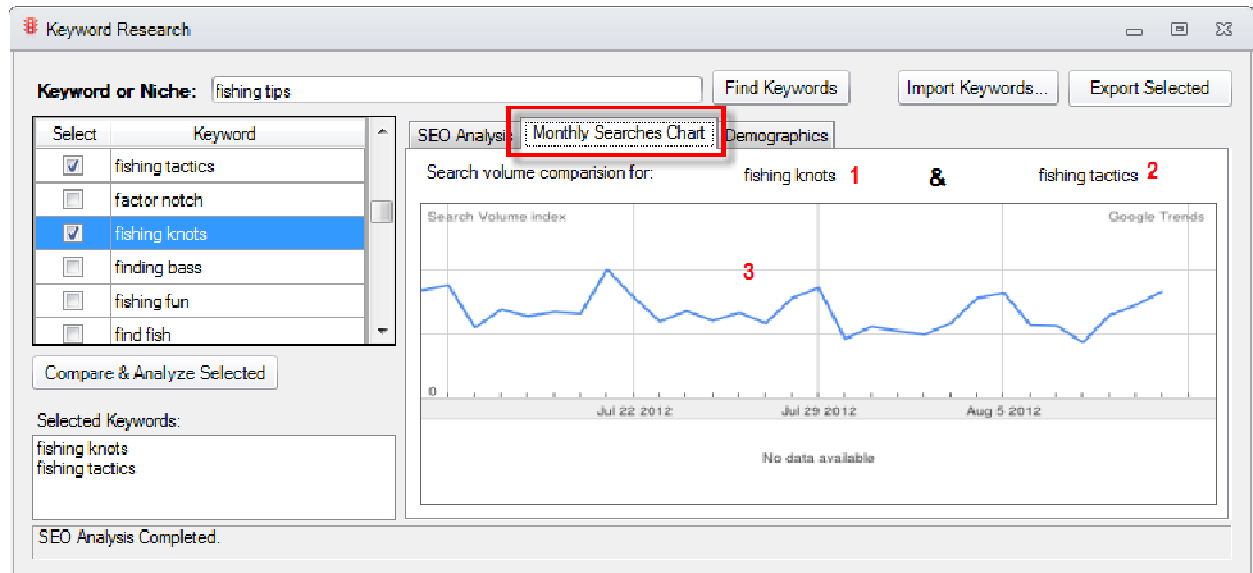

Highest PR (3): The highest Pagerank of Google's top 10 results websites.

Lowest PR (4): The lowest Pagerank of Google's top 10 results websites.

Highest Backlinks (5): The highest number of incoming backlinks of Google's top 10 results websites.

Lowest Backlinks (6): The lowest number of incoming backlinks of Google's top 10 results websites.

And for the second tab “Monthly Searches Chart”, it shows you which keyword of the two has the more traffic coming to it.

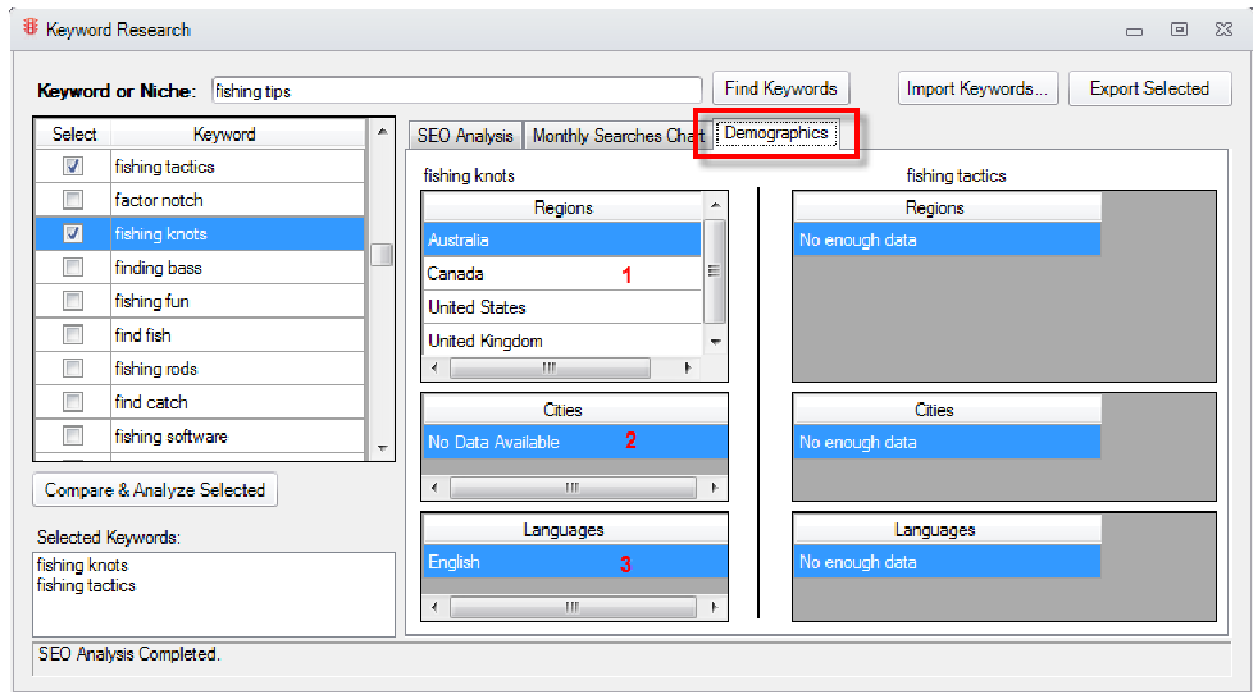

(1): The first keyword being compared.

(2): The second keyword being compared.

(3): The searches chart.

The final tab “Demographics” tells you what kind of people search for that keyword, this will be helpful for you if you want to know that this keyword is good for your customers base.

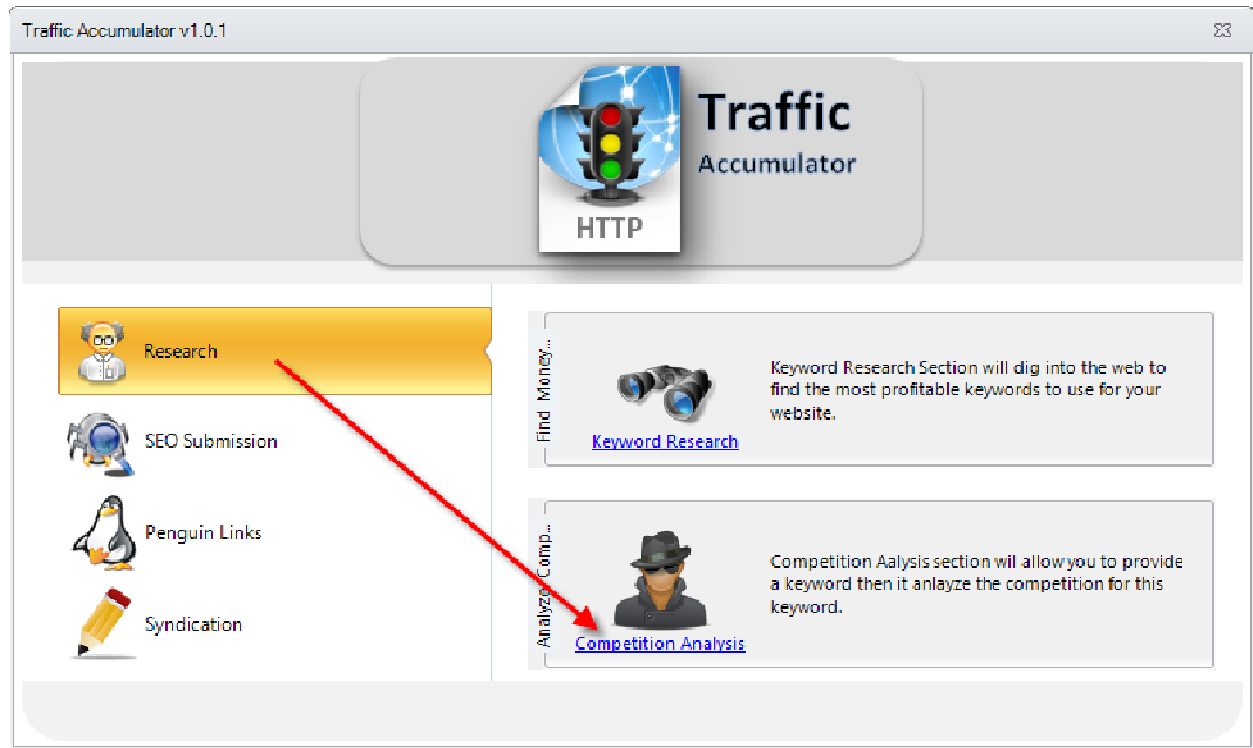

Regions (1): This tells you from where the majority of searchers for this keyword come from [Country].

Cites (2): This tells you from which City the majority of searchers for this keyword come from.

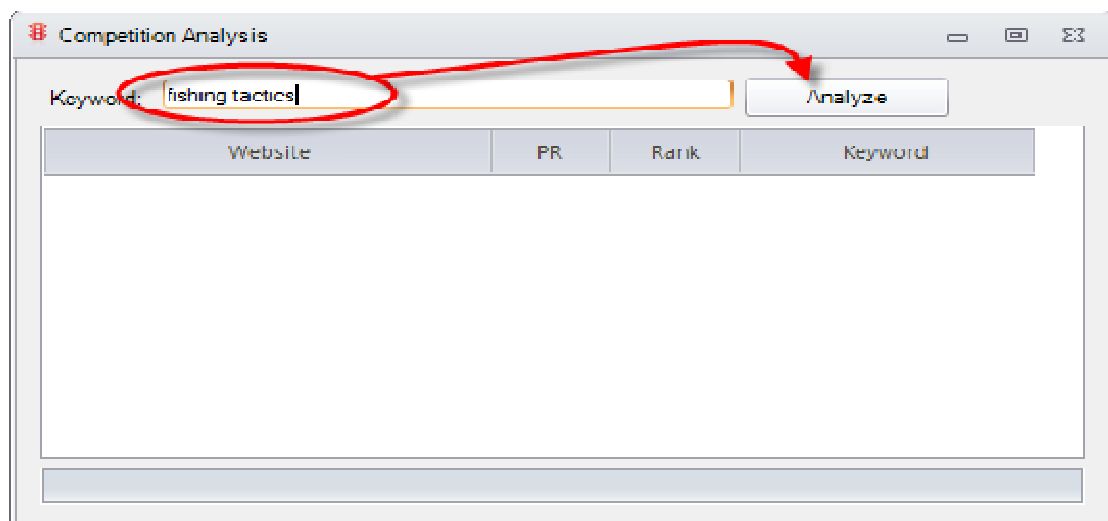

Languages (3): This tells you what language the majority of searchers for this keyword use.

Step 2: Competition Analysis

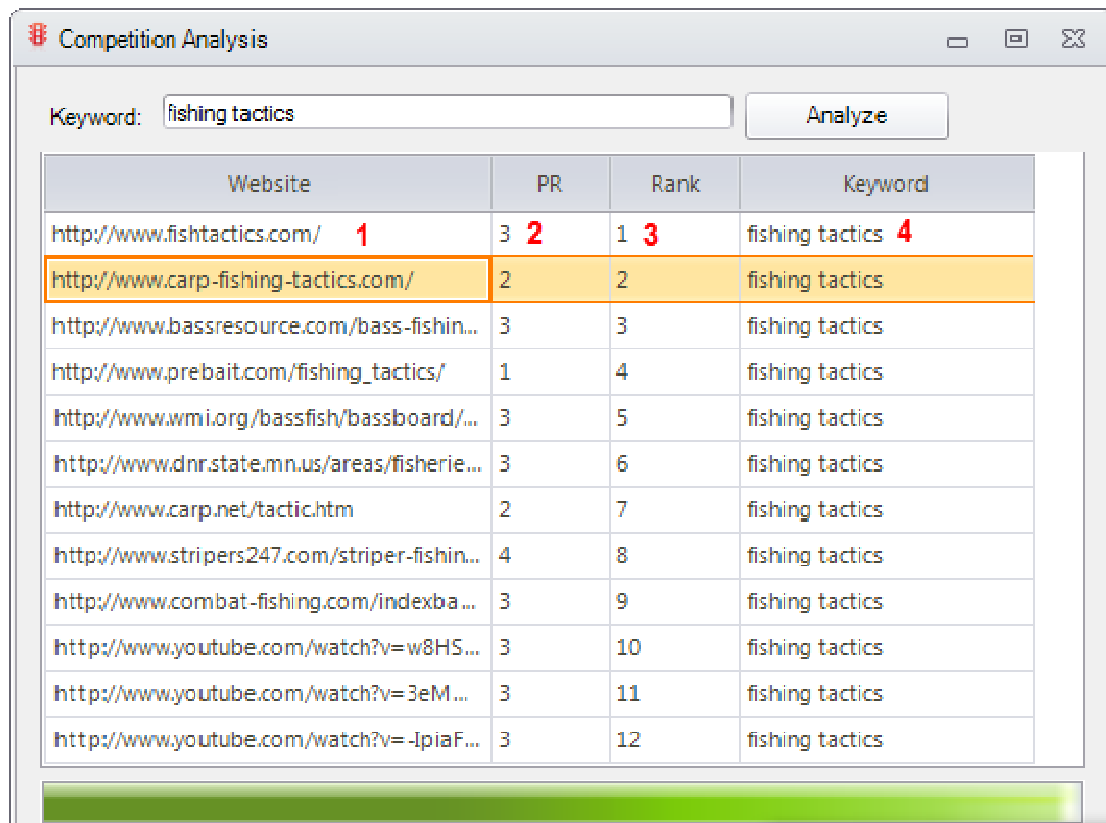

Going back to the main screen of Traffic Accumulator, you will see a section called competition analysis, from this section you will be able to use the keywords you found in the previous step, and find more about who is competing for this keyword.

The first thing you need to do in this section is type in the keyword you want to do competition analysis on and then click on the “Analyze” button.

Then after few seconds the analysis results will show, Traffic Accumulator will collect the top 10 websites returned by Google and do analysis on each one of them:

The screenshot shows a window titled "Competition Analysis" with a search bar containing "fishing tactics" and an "Analyze" button. Below the search bar is a table with four columns: Website, PR, Rank, and Keyword. The table lists 12 results. The second row, representing "http://www.carp-fishing-tactics.com/", is highlighted in orange. Red numbers are overlaid on the table cells to indicate specific data points: a red "1" next to the first website, a red "2" next to its PR, a red "3" next to its Rank, and a red "4" next to the keyword in the first row.

Website	PR	Rank	Keyword
http://www.fishtactics.com/	3	1	fishing tactics
http://www.carp-fishing-tactics.com/	2	2	fishing tactics
http://www.bassresource.com/bass-fishin...	3	3	fishing tactics
http://www.prebait.com/fishing_tactics/	1	4	fishing tactics
http://www.wmi.org/bassfish/bassboard/...	3	5	fishing tactics
http://www.dnr.state.mn.us/areas/fisherie...	3	6	fishing tactics
http://www.carp.net/tactic.htm	2	7	fishing tactics
http://www.striper247.com/striper-fishin...	4	8	fishing tactics
http://www.combat-fishing.com/indexba...	3	9	fishing tactics
http://www.youtube.com/watch?v=w8HS...	3	10	fishing tactics
http://www.youtube.com/watch?v=3eM...	3	11	fishing tactics
http://www.youtube.com/watch?v=-lpiaF...	3	12	fishing tactics

Website (1): The website or the competitor being analyzed.

PR (2): Google Pagerank of this competitor.

Rank (3): Which rank this competitor hold on google for this keyword.

Keyword (4): The keyword that the competition is being analyzed for.

SEO Submission Section

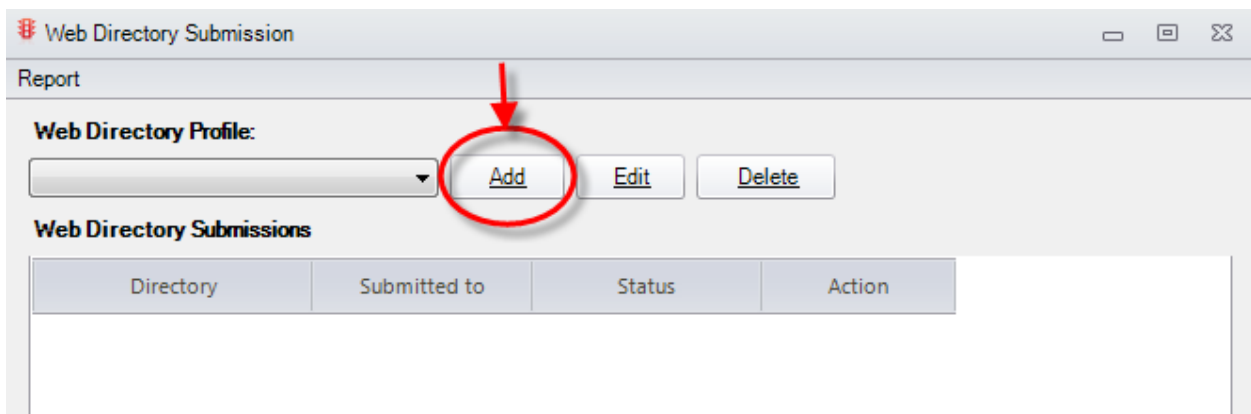

Step 1: Web Submission

Traffic Accumulator allows you to submit your website to various web directories, you can do so, by navigating first to the Web Submission section:

Then the Web Directory submission window will pop up, to start the submission you need first to create a Profile that will hold the submission data of your website.

Start by clicking the “Add” button:

Then a window will pop up so that you can fill in the profile details:

Add Profile

Add/Edit Profile

Profile Name: my profile 1 **1**

Website URL: http://www.tomshardware.com **2**

Website Title: Computing Forum and Help **3**

Your Name: Jack Mikene **4**

Email: iklmn@gmail.com **5**

Short Description: A great website to find informatio... **6**

Long Description: If you want to know more about... **7**

Category Contains: Computer, Programming, Technology, General **8**

Save **Cancel**

Profile Name (1): Give a name to your profile (for internal use only)

Website URL (2): The URL of the website you want to submit.

Website Title (3): The Title(s) of the website you want to submit.

Your Name (4): Enter the name that will be used in the submission.

Email (5): A valid email, because you will receive confirmation emails to this email.

Short Description (6): A Short paragraph to describe your website.

Long Description (7): A few paragraphs to describe what your website is about.

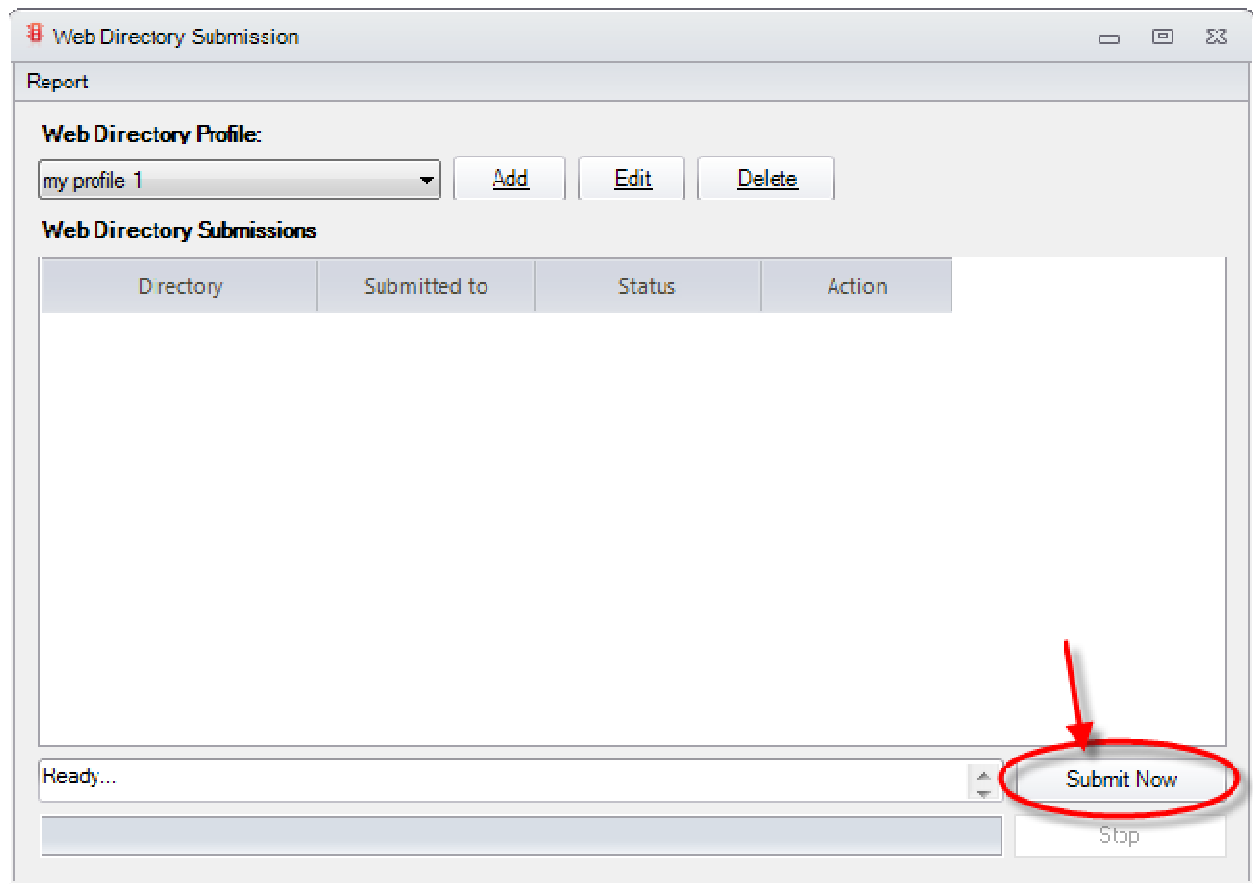

Category (8): Enter multiple categories that you want your website to be submitted to, usually I add the following values: (General, My Category1, My Category 2) "General" so that

to be safe, since all directories have this category. "My Category1" could be for example "Health" if you are promoting a health website.

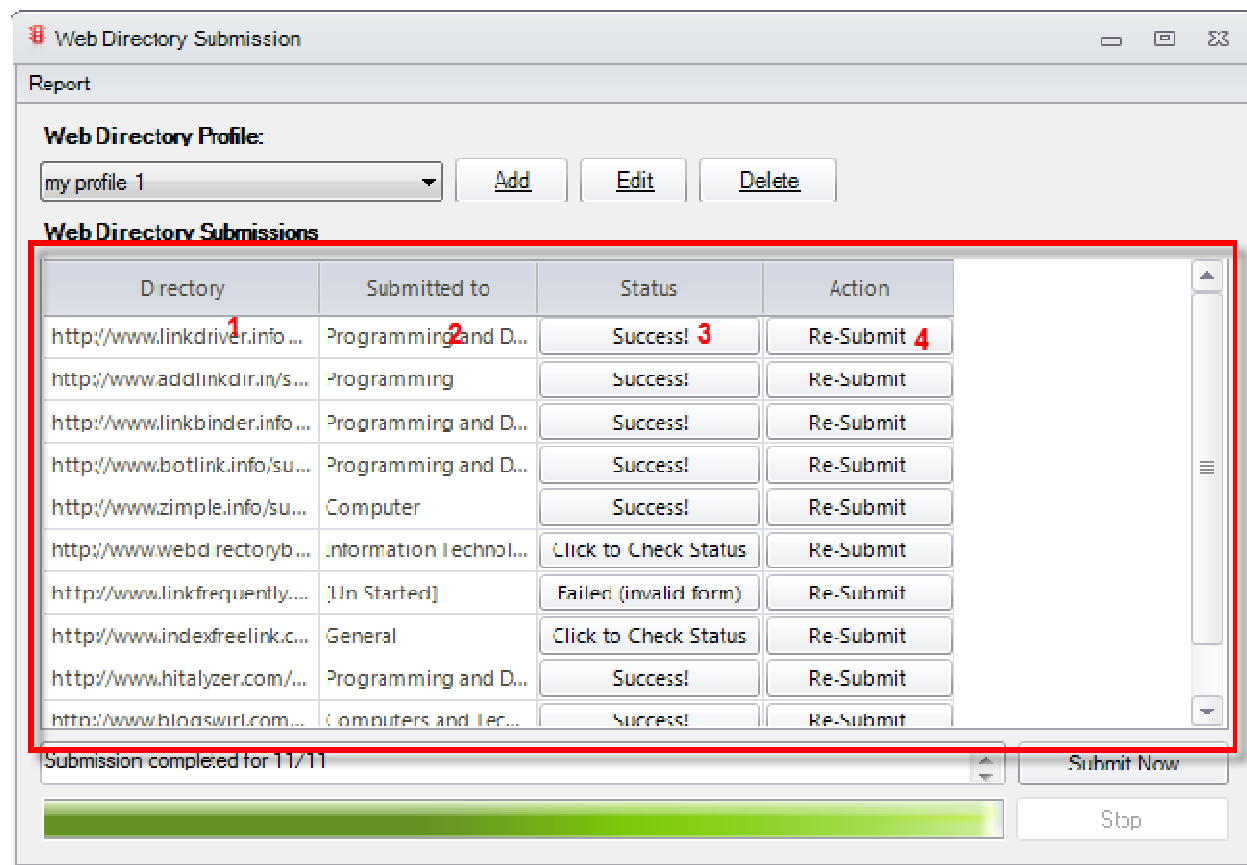

"My Category2" could be "Fitness" if I am promoting the same health site and "Health" wasn't found, this was Traffic Accumulator will search for "General" if not found it will try to find "Health" if not found it will try to find "Fitness" in the categories.

Then hit the "Save" button

Now that your profile is ready, you should click the “Submit Now” button to initialize the submission process:

Then wait for a moment and Traffic Accumulator will finish submitting your website to web directories.

Directory (1): The directory your website is submitted to.

Submitted to (2): The category that your website was submitted to in this directory.

Status (3): The Status of your submission, if it was a success or failure, also when clicked it will show you the page Traffic Accumulator got when it tried to submit your website.

Action (4): When clicked Traffic Accumulator will re-submit your website to this directory, useful if there was an error like "category not found" and you fixed it and tried again.

Step 2: RSS Submission

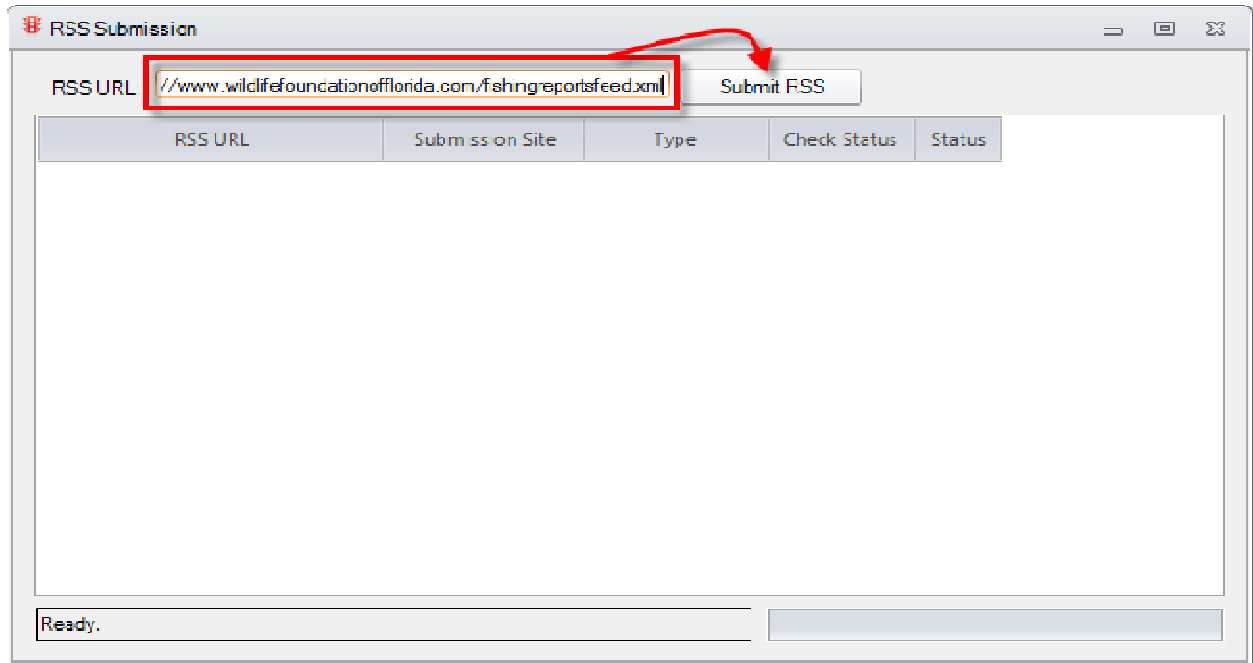

Traffic Accumulator can submit your RSS feed to various RSS directories automatically by following very simple steps.

First let's navigate to the RSS submission section in Traffic Accumulator:

After opening the RSS Submission section the below window will show up, that allows you to start the submission.

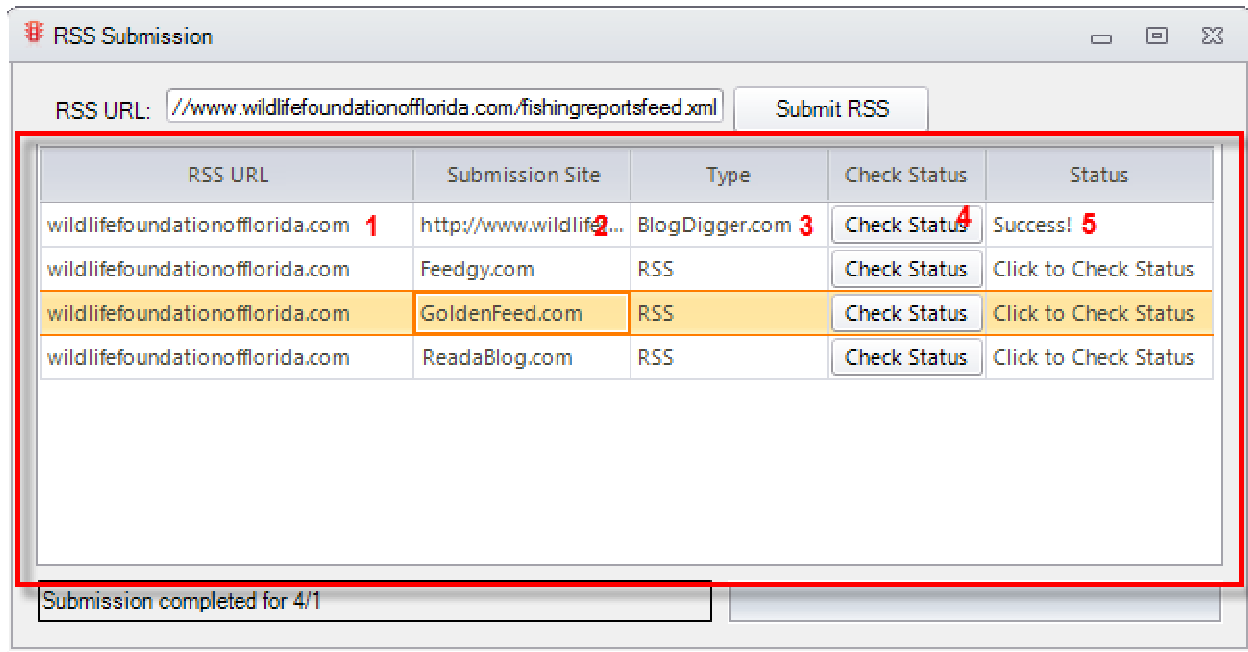

And in order for you to do that, you will need to provide Traffic Accumulator with your RSS feed URL:

The screenshot shows a window titled "RSS Submission". Inside the window, there is a text input field labeled "RSS URL" containing the text "http://www.wildlifefoundationofflorida.com/fishingreportsfeed.xml". A red rectangle highlights this input field, and a red arrow points from it to a button labeled "Submit RSS". Below the input field and button is a table with five columns: "RSS URL", "Submission Site", "Type", "Check Status", and "Status". The table is currently empty. At the bottom of the window, there is a status bar that says "Ready.".

RSS URL	Submission Site	Type	Check Status	Status
---------	-----------------	------	--------------	--------

Now hit the “Submit RSS” button and Traffic Accumulator will start the submission of your RSS feed:

The screenshot shows a web application window titled "RSS Submission". At the top, there is a text input field for "RSS URL" containing "http://www.wildlifefoundationofflorida.com/fishingreportsfeed.xml" and a "Submit RSS" button. Below this is a table with five columns: "RSS URL", "Submission Site", "Type", "Check Status", and "Status". The table contains four rows of data. The first row shows a successful submission to BlogDigger.com. The other three rows show submissions to Feedgy.com, GoldenFeed.com, and ReadaBlog.com, all with "Click to Check Status" links. A red box highlights the table area. At the bottom of the window, a status bar indicates "Submission completed for 4/1".

RSS URL	Submission Site	Type	Check Status	Status
wildlifefoundationofflorida.com 1	http://www.wildlife... 2	BlogDigger.com 3	Check Status 4	Success! 5
wildlifefoundationofflorida.com	Feedgy.com	RSS	Check Status	Click to Check Status
wildlifefoundationofflorida.com	GoldenFeed.com	RSS	Check Status	Click to Check Status
wildlifefoundationofflorida.com	ReadaBlog.com	RSS	Check Status	Click to Check Status

Submission completed for 4/1

RSS URL (1): The URL of your RSS Feed.

Submission Site (2): The RSS Feed directory your feed is being submitted to.

Type (3): The Type of the submission.

Check Status (4): When clicked, Traffic Accumulator will show you the page that was downloaded when it tried to submitted your RSS feed (useful in case of error).

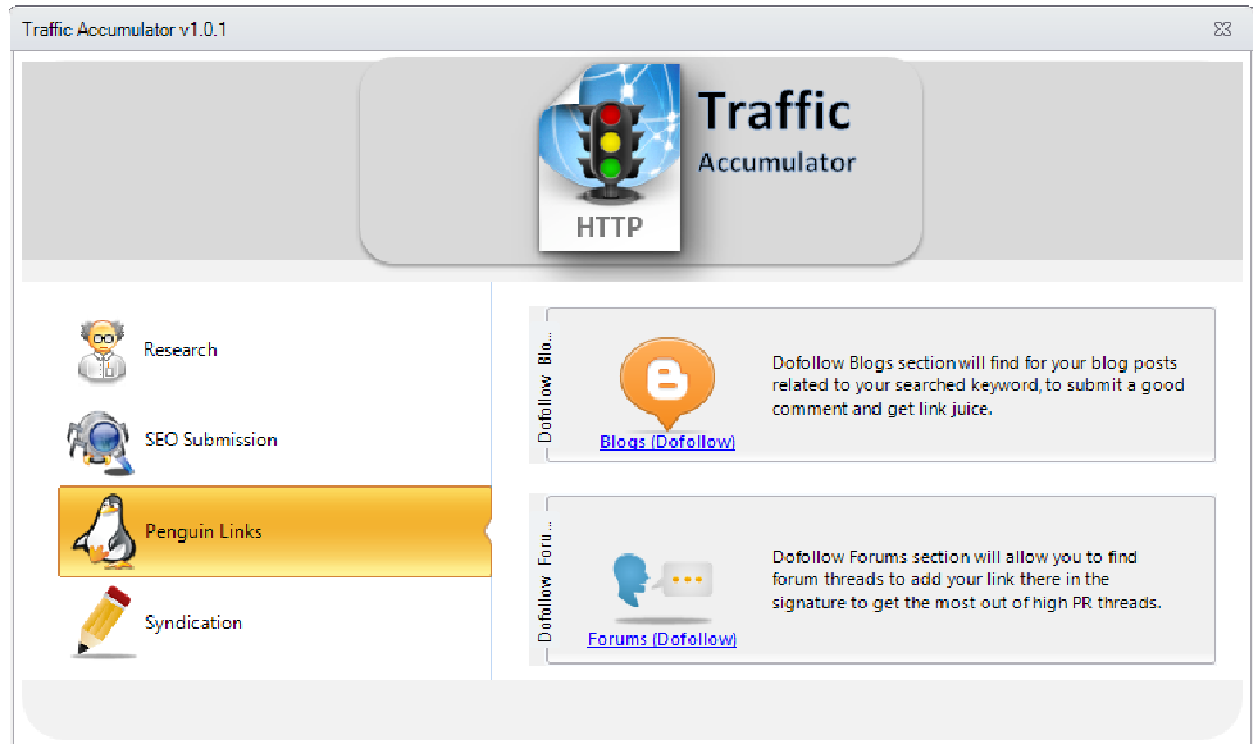

Status (5): Tells you if the submission was a success or failure.

Penguin Links Section

Step 1: Blog Commenting

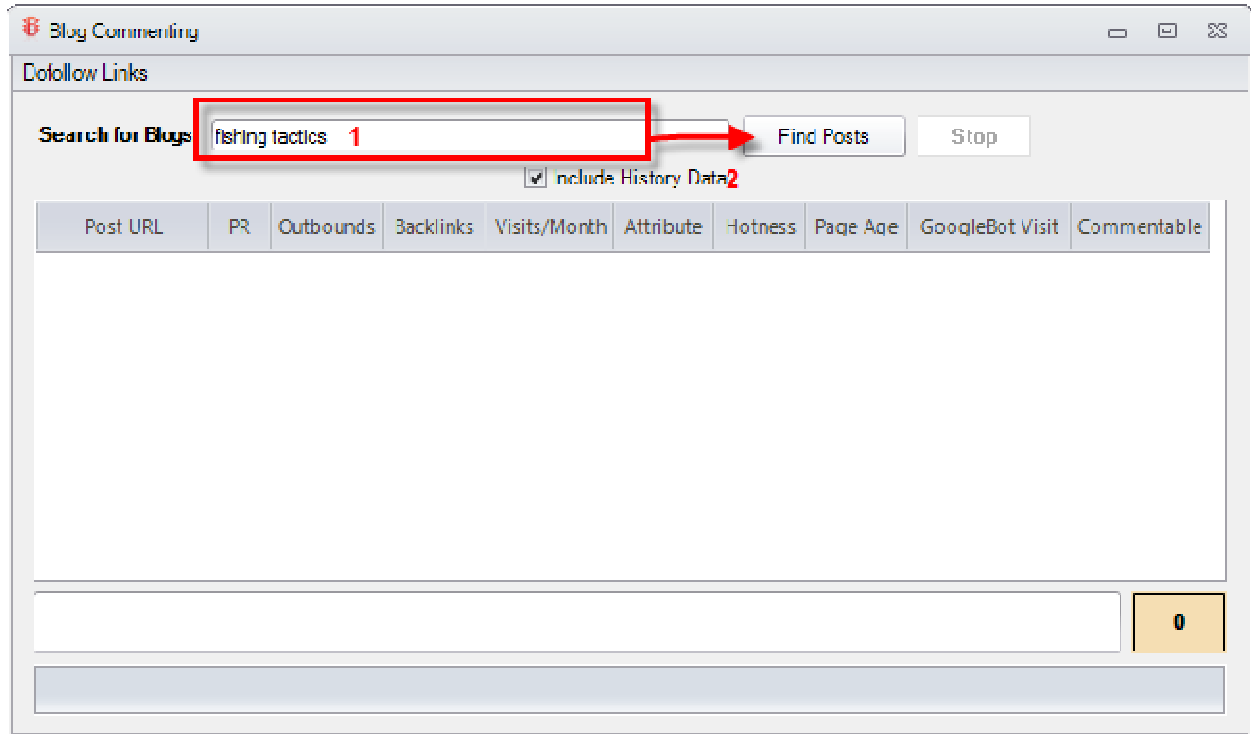

Blog Commenting is certainly a very powerful promotion method on post-penguin era, that's why it had been incorporated in Traffic Accumulator.

To start Blog Commenting section, please find it from the main screen:

After clicking the “Blogs (Dofollow)” link, you will be taken to the Blog Commenting section.

The first thing you need to do to start searching for dofollow blog posts, is to set your search parameters:

The screenshot shows a web application window titled "Blog Commenting". Below the title bar is a section labeled "Dofollow Links". Inside this section, there is a search interface. On the left, the text "Search for Blogs" is followed by a text input field containing the keyword "fishing tactics" and a red number "1". A red rectangular box highlights this input field, and a red arrow points from it to a "Find Posts" button. To the right of the "Find Posts" button is a "Stop" button. Below these buttons is a checkbox labeled "include History Data" with a red number "2" next to it; the checkbox is currently checked. Underneath the checkbox is a horizontal table with ten columns: "Post URL", "PR", "Outbounds", "Backlinks", "Visits/Month", "Attribute", "Hotness", "Page Age", "GoogleBot Visit", and "Commentable". The main area of the application is a large, empty white rectangle. At the bottom of the window, there is a status bar with a long white input field on the left and a small yellow box on the right containing the number "0".

Search for Blogs (1): The keyword you want to find blog posts related to.

Include History Data (2): This one (if checked) will take your previous search results and ban them from showing, this way you can search for multiple keywords and not worry about duplicate-cross results.

Now click on the “Find Posts” button and results will start showing:

Blog Commenting

Search Stopped! 8/8

Post URL (1): The URL of the blog post found, when clicked, the link will open up in your default browser.

PR (2): Google PageRank of the blog post.

Outbounds (3): The number of links going out of the blog post URL (external links).

Backlinks (4): The number of links coming to this blog post.

Visits/Month (5): The number of monthly visitors coming to the blog itself.

Attribute (6): Tells you if your comment will be dofollow or nofollow on this blog post.

Hotness (7): Traffic Accumulator's measure of hotness of this blog post, based on many factors.

Page Age (8): Tells you how old this blog post is or when it was created.

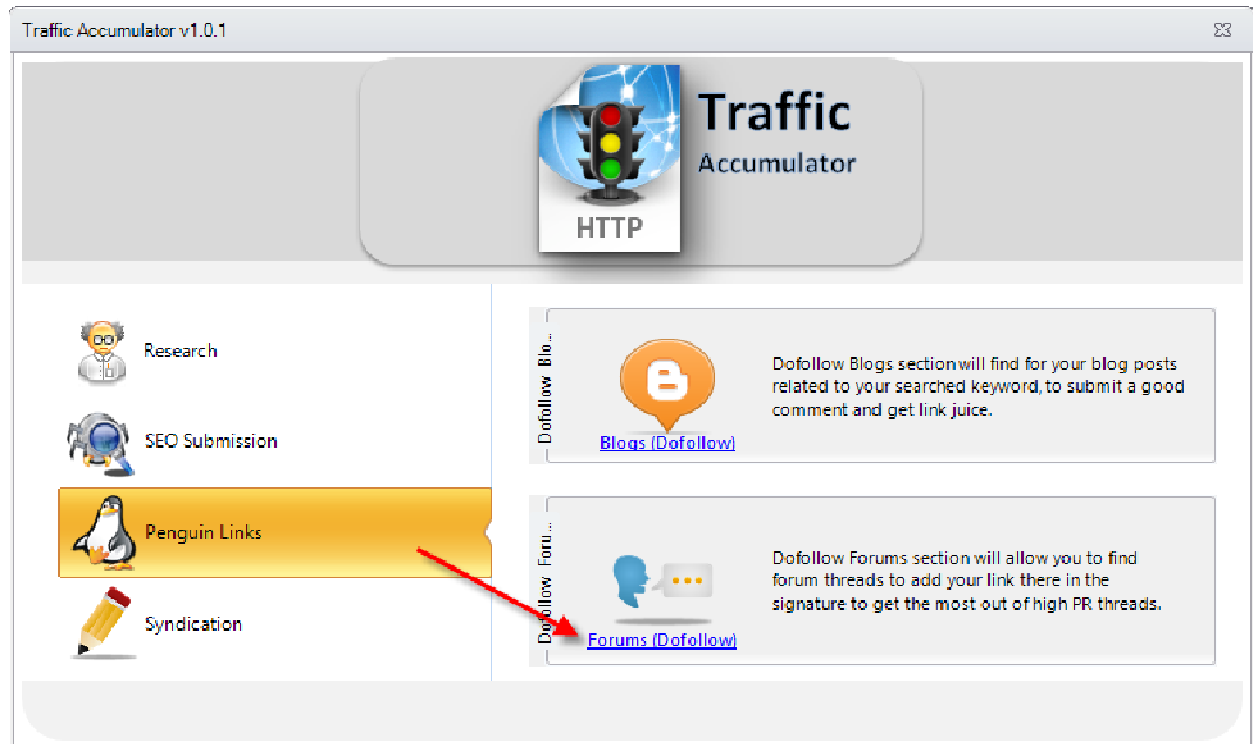

GoogleBot Visit (9): Tells you the last time google crawled this blog post, you need to right click for this value to show.

Commentable (10): Tells you if you can comment on this blog post (Commentable), or if you need to have an account on the blog before commenting (Login Req.).

Step 2: Forums Posting

Forums Posting is certainly a very powerful promotion method on post-penguin era, that's why it had been incorporated in Traffic Accumulator.

To start Forums Posting section, please find it from the main screen:

After clicking the “Forums (Dofollow)” link, you will be taken to the Forums Posting section.

The first thing you need to do to start searching for dofollow forum threads, is to set your search parameters:

The screenshot shows a web application window titled 'Forum Posting'. Below the title bar is a section labeled 'Dofollow Links'. The main interface features a search bar with the text 'fishing tips' and a red box around it labeled '1'. To the right of the search bar is a red arrow pointing to a 'Find Threads' button. Below the search bar is a checkbox labeled 'Include History Data' with a red box around it labeled '2'. Below the checkbox is a table with the following headers: Thread URL, PR, Outbounds, Backlinks, Visits/Month, Attribute, Hotness, Page Age, GoogleBot Visit, and Commentable. Below the table is a large empty text area. At the bottom of the window is a yellow button labeled '0'.

Search for Forums (1): The keyword you want to find forum threads related to.

Include History Data (2): This one (if checked) will take your previous search results and ban them from showing, this way you can search for multiple keywords and not worry about duplicate-cross results.

Now click on the “Find Threads” button and results will start showing:

Commentable (10): Tells you if you can comment on this forum thread (Commentable), or if you need to have an account on the forum before commenting (Login Req.).

Syndication Section

Step 1: Guest Posting

Guest Posting is simply, where you submit your article on another blog in your niche which have SEO and readership value.

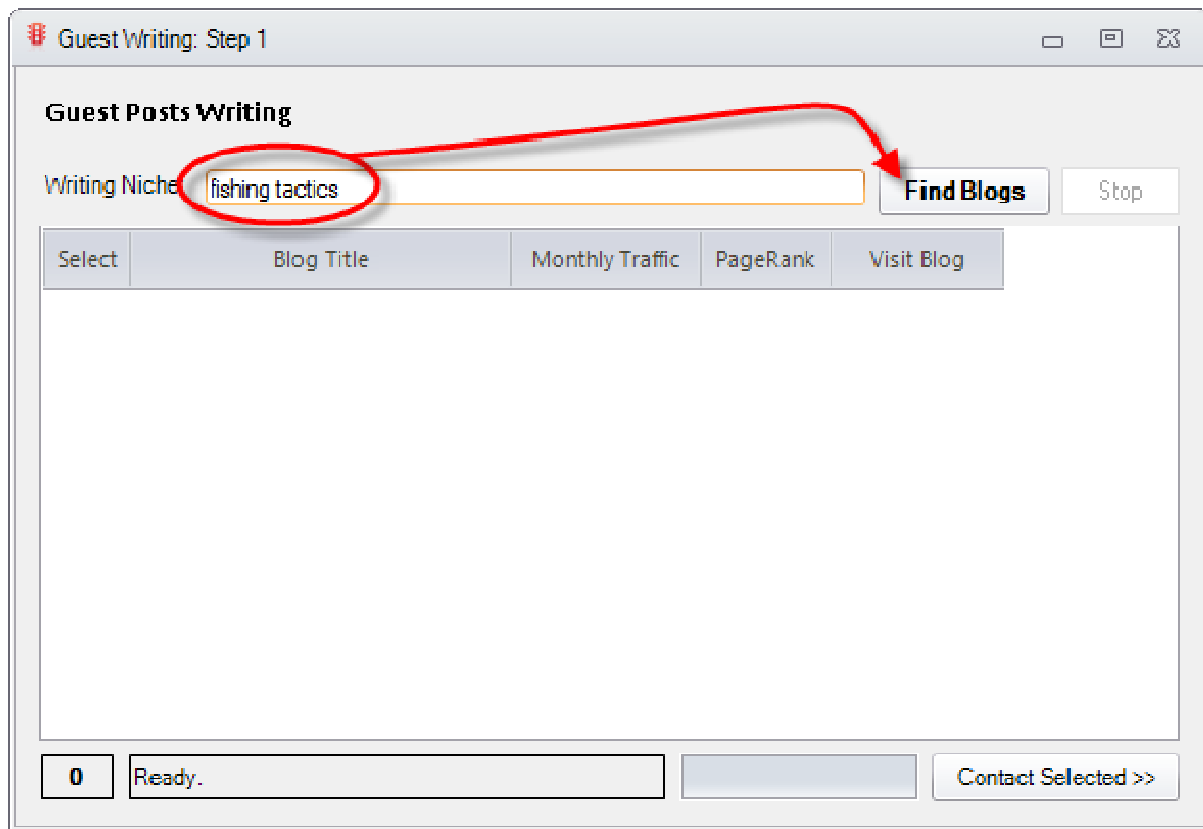

To start Guest Posting section, please find it from the main screen:

After clicking the “Guest Posting” link, you will be taken to the Guest Posting section.

A. Find Blogs

First you need to find the blogs, by typing in your niche:

(Then hit the "Find Blogs" button)

You should then wait for Traffic Accumulator to finish searching for blogs that you are going to request guest posting with.

Let's look at the results you get after clicking the "Find Blogs" button

The screenshot shows a software window titled "Guest Writing: Step 1". Inside, there's a section "Guest Posts Writing" with a search bar labeled "Writing Niche:" containing the text "fishing tactics". To the right of the search bar are two buttons: "Find Blogs" and "Stop". Below the search bar is a table with the following columns: "Select", "Blog Title", "Monthly Traffic", "PageRank", and "Visit Blog". The table contains 10 rows of search results. The first row is highlighted, and its cells are annotated with red numbers 1 through 5. At the bottom of the window, there is a status bar showing "0" in a box, a text box containing "Search Stopped!", a green progress bar, and a button labeled "Contact Selected >>".

<input type="checkbox"/>	sportsblog.congoblog.net/	N/A	N/A	Visit Blog

Select (1): You can select the blog you want to send guest posting request to.

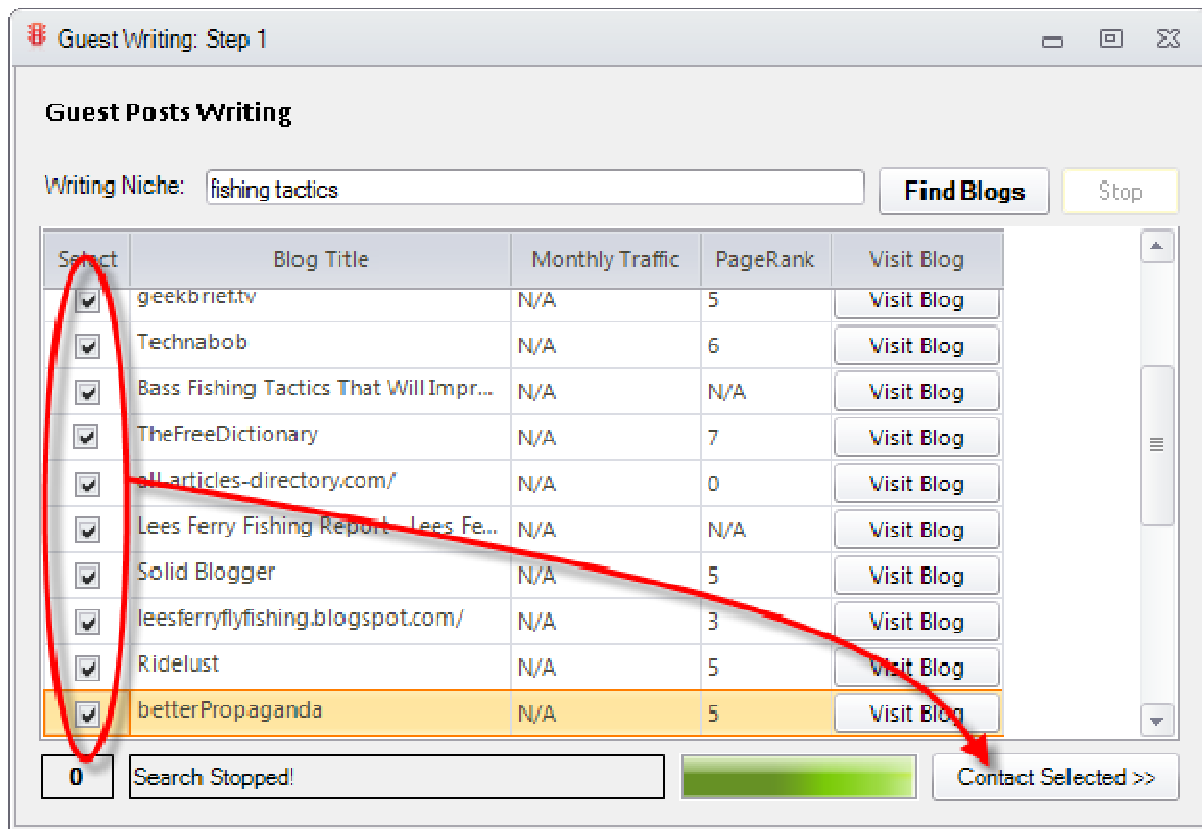

Blog Title (2): The META title of the blog's website.

Monthly Traffic (3): The unique visitors per month the blog receives.

PageRank (4): Google's pagerank of the blog.

Visit Blog (5): Button when clicked will take you to the homepage of the blog.

Now what's left for you to do is to select the blogs you want to send requests to

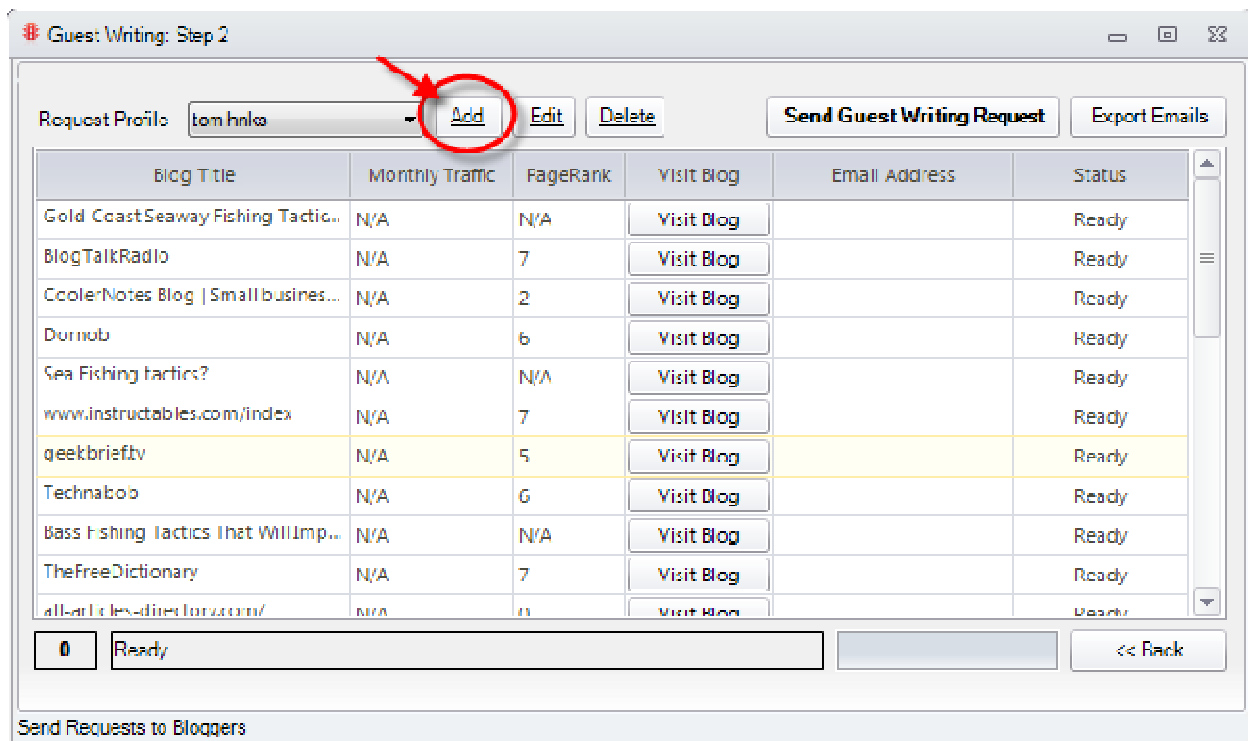

Then click the "Contact Selected" button which will take you to the sending requests step.

B. Send Requests

The first thing you need to do after clicking the “Contact Selected” button from the previous step is to create a request profile.

Request profiles will hold all the data Traffic Accumulator needs to start sending guest posting requests, this data are your email logins and the message and the subject of the message.

So to start click on the “Add” button:

The screenshot shows a web application window titled "Guest Writing: Step 2". At the top, there is a "Request Profile" dropdown menu with "tom hnlka" selected. To its right are buttons for "Add", "Edit", and "Delete". Further right are buttons for "Send Guest Writing Request" and "Export Emails". Below this is a table with columns: "Blog Title", "Monthly Traffic", "PageRank", "Visit Blog", "Email Address", and "Status". The table contains 10 rows of data. The row for "geekbrief.tv" is highlighted in yellow. At the bottom of the table, there is a summary bar showing "0" and "Ready". A red circle and arrow point to the "Add" button.

Test Sending 8 Save Cancel

Profile Name (1): Give your profile a name.

Your Email (2): This should be the email that you want to receive the replies to.

Your Password (3): The password of the selected email.

SMTP Host (4): The SMTP host server (if you are using yahoo or gmail or hotmail then Traffic Accumulator will fill in that data for you) if you are using a non-free email then you need to contact your hosting company to get this server address.

SMTP Port (5): The port that is used by the SMTP server (again, autofilled for yahoo,hotmail,gmail otherwise contact your hosting company to get the port number).

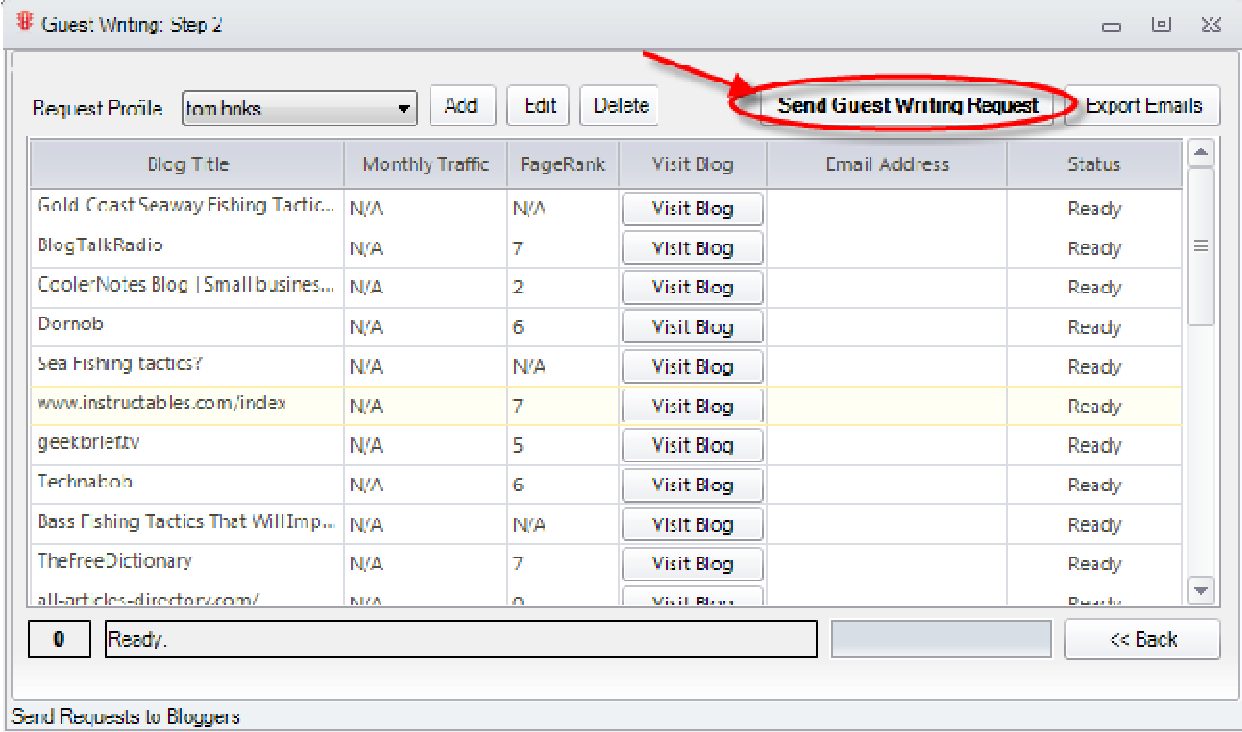

Request Subject (6): The subject of the email message Traffic Accumulator is going to send.

Request Body (7): The actual request for guest posting email message body.

Test Sending (8): After filling in your Email Settings, you can click this button and Traffic Accumulator will send a test email to the provided email address (Your Email Address).

Now your profile is ready to send the guest posting requests.

To do so click on the “Send Guest Writing Request” button:

The screenshot shows a web application window titled "Guest Writing: Step 2". At the top, there is a "Request Profile" dropdown menu set to "tom hanks", with "Add", "Edit", and "Delete" buttons next to it. A red arrow points to a "Send Guest Writing Request" button, which is circled in red. To the right of this button is an "Export Emails" button. Below these controls is a table with the following columns: "Blog Title", "Monthly Traffic", "PageRank", "Visit Blog", "Email Address", and "Status". The table contains ten rows of data, each with a "Visit Blog" button in the "Visit Blog" column. At the bottom of the window, there is a status bar showing "0" and "Ready.", a "Send Requests to Bloggers" button, and a "<< Back" button.
